

HDI Predictor - User Operational Manual

1. Scenario Simulator Panel

1. Open the dashboard in your web browser.
2. Navigate to the 'Scenario Simulator' tab in the left sidebar.
3. Adjust the sliders for Life Expectancy, Schooling, and GNI per Capita.
4. Check the results: the gauge displays the prediction score, and the circular dial shows the confidence tier.
5. View explainable indicators and recommendations below the dials.

2. Comparing Countries Side-by-Side

1. Go to the 'Country Comparison' tab.
2. Select Country A and Country B from the preset profiles, or customize the values manually.
3. Click 'Run Comparison' to display a bar chart comparing their normalized indicator inputs.

3. Historical Log & Exports

1. Click 'Prediction History' to view past simulation records.
2. Use the filters to find records, or click 'Export as CSV' to download the log database.
3. Click 'Delete' to remove specific runs, or 'Clear Log' to clear all history.
