

Video Demonstration Script

Scene 1: Introduction (0:00 - 0:30)

Narration: 'Welcome to HDI Insight AI, a smart analytics dashboard designed to simulate and predict the Human Development Index. This platform uses machine learning to classify human development into four tiers: Low, Medium, High, and Very High...'

Scene 2: Scenario Simulator & Dials (0:30 - 1:30)

Narration: 'Let's open the Scenario Simulator. As I drag the Life Expectancy slider, you can see the score gauge and circular confidence dial update instantly. The system also outputs explainable indicators and policy recommendations...'

Scene 3: Comparisons & Exports (1:30 - 3:00)

Narration: 'Here on the Country Comparison tab, we compare two profiles. On the Prediction History page, we see our past runs saved in SQLite. With one click, I can download a CSV file of these records. That concludes our demo. Thank you!'
